§ 5 Sections

7.1.018 Each side of the section must be marked by plastic course tape, **rope or white lines on the ground**. The tape **or rope** should be installed 20 to 30 cm above the ground. There can also be plastic course tape, **rope or white lines on the ground** inside the section to indicate different lines of difficulty or closing some obstacles adding extra difficulty.

The tape should be minimum 12 cm wide and of high quality, **the rope should be minimum 10 mm thickness, the white lines should be minimum 6 mm wide. All these parameters are as defined in the technical specifications of the organisation Event Setup and Section building guide.**

Inside the sections there are coloured arrows indicating the gates. Gates are indicated with two arrows (same colour and number) pointing at each other and leaving a space between them, where riders must pass through them.

Each section shall be split into six sectors. Each sector is composed of different obstacles marked with gates. Gates inside the section with the same number and different letter, belong to the same sector (for example 1A, 1B and 1C belongs to sector 1).

If a sector contains only one gate, then the gate can be indicated only with the corresponding number. If a sector contains more than one gate, then the number of last gate must be circled to indicate that is the last gate of the sector:

- the first sector starts at the starting line by passing the front wheel axle.
- the next sector starts at the last gate of the previous sector by passing both wheel axles;
- the sector ends at the last gate by passing both axles, except the last sector which ends at the finish line by passing the front wheel axle.

§ 16 Infringements, penalties, deduction of points and protest

7.1.087 Entering the gate of some other category, skipping a gate of his/her own category or not riding the gates in the correct order (5 penalty points).

The rider must cross the gates of the sector where he/she is riding whereas it is not allowed to cross any other gates of other sectors. **As an exception, the last gate of a sector may be re-crossed in reverse, but it must be passed again in the correct sense before cross the first gate of the next sector.**

Entering a gate in the wrong sense for the first time (5 penalty points).

A gate is passed only if the line between the two arrows with the same number is crossed in the correct sense of the arrows. Once the gate is passed, if it is crossed backwards, the rider will have to pass it again (in the correct sense of the arrows).

The crossing is only valid if at least one wheel axle crosses above the arrow level or gate line. If both axles cross the line below the arrow level, the crossing is not passed yet. The crossing with both axels below the arrow level shall be permitted for all other categories.

Chapter VI UCI TRIALS RANKING

7.6.002 The UCI has created the UCI Trials ranking. The UCI is its exclusive owner.

The UCI Trials ranking is drawn up over a period of one year, in accordance with the conditions set out below, by adding the points won since the preceding ranking was drawn up and respecting the provisions of article 7.6.004.

At the same time the remaining points obtained up to the same day of the previous year by each rider in international Trials competitions are deducted. The new ranking comes into force on the day of its publication and stands until the publication of the subsequent ranking.

The UCI Trials ranking will take into account only one UCI Trials World Championships and one Continental Championships. The UCI points allocated for UCI Trials World Championships and Continental Championships remain valid until the date they are organised again in the following year. If there are no Continental Championships registered on the calendar for a particular season, the validity of the UCI points shall stand for 12 months.
